PYP COORDINATOR

Dear Grade 5 Parents,

Over the past few months, our fifth graders have been thoughtfully exploring and selecting their research topics for the upcoming PYP Exhibition. It has been truly inspiring to witness their curiosity, enthusiasm, and commitment to their chosen areas of inquiry. They have successfully developed their Central Ideas, Lines of Inquiry, specified and additional concepts, as well as preliminary timelines and essential agreements.

As part of our ongoing commitment to providing meaningful and structured support, the leadership team has worked closely and refined the Central Ideas and Lines of Inquiry, ensuring they are conceptually strong and inquiry-driven. Furthermore, we have contacted the Wellspring community to invite mentors to assist our learners on this milestone. I am pleased to share that many teachers have generously volunteered their time and expertise, despite their busy schedules, to support our students through mentoring sessions. We are deeply grateful for their continued dedication.

As highlighted during the PYP Exhibition Parent Orientation, parental involvement plays a vital role in enriching students' learning experiences. Your guidance and engagement can significantly enhance their growth, confidence, and understanding.

With this in mind, I warmly invite interested parents to join us as mentors for our Grade 5 students. If you are willing to contribute your time and expertise, please contact me via email @Suzan Jouljian reach out to your child's homeroom teacher @Bushra Harakeh, @Diana Itani and @Jana El Hachache . Kindly note that mentoring involves attending selected Unit of Inquiry sessions and supporting students throughout their process.

Your involvement will not only enrich our students' learning journey but also strengthen the sense of collaboration and community within our school.

Thank you for your continued support, encouragement, and commitment to the success of our Grade 5 learners.

Best regards,

Suzan Jouljian
